### • Accident cover

Your pet is covered for injury as a result of an accident (e.g. a dog or cat fight) or other sudden and unforeseen incidents (e.g. fractured bones).

### • Illness cover

Your pet is covered for any unforeseen illness where the pet had to be admitted to the veterinary practice.

### • Vet visits

This includes veterinary consultation fees, prescribed medication, diagnostic tests and dentistry which does not require admission to a veterinary practice.

## Get even more OUT

This optional cover is available for selection at an additional premium.

### Routine care

Routine care contributes towards the cost of maintaining your pet's health and includes vaccinations, anal gland expressions, and voluntary sterilisation. You may only submit one claim per pet per year.

## Your responsibility

### Vaccinations

Your pet should have a yearly check-up and receive annual vaccinations recommended by a vet to prevent certain illnesses. If you neglect to do this and claim for such an illness, it will affect the outcome of your claim.
